Connexa

A professional networking platform inspired by LinkedIn that connects individuals, companies, and communities in one ecosystem. Connexa enables users to build their professional profiles, share career updates, post content, and connect with others based on industry and interests. Recruiters can post job opportunities, while professionals can showcase their achievements, build connections, and grow their career network efficiently.

PROJECT

Apartment Project

Luxora is an e-commerce platform created to provide a trusted space for purchasing branded and luxury fashion items. Unlike generic marketplaces, every product is listed directly by official stores, ensuring authenticity and quality. The website offers a customer side to browse, shop, and manage their cart, as well as a store-side dashboard for sellers to upload products, adjust inventory, and process incoming orders.
